

## Bracco Imaging scholarships for the territory

Created in 1996, in collaboration with Bracco Imaging and the municipal administrations of Bovisio Masciago, Cogliate, Ceriano Laghetto, Cesano Maderno and Solaro, with Limbiate added in 2018, to support the University studies of students resident in the municipalities involved

Created in 1996, in collaboration with Bracco Imaging and the municipal administrations of Bovisio Masciago, Cogliate, Ceriano Laghetto, Cesano Maderno and Solaro, with Limbiate added in 2018, to support the University studies of students resident in the municipalities involved, situated in the territory where the Bracco Group is present with one of its most important production sites, they have become a local tradition.

In 2018 the prizes were aimed at students both of scientific and humanistic faculties, both in the first three years of studies and the two-year or single cycle specialist course, with preference for scientific faculties.

The initiative, started as a good practice of social responsibility in the territory where the Group operates, have created strong reciprocal ties between the company and the communities of reference.
