

Joint program with the Mexican Society of Radiology and the Mexican Federation of Radiology

To support the training of young foreign radiologists, after China and Brazil, Bracco Foundation in 2019 starts an important partnership with the Mexican Society of Radiology and the Federation Mexican of Radiology.

With a view to supporting the training of young foreign radiologists, after China and Brazil, the Bracco Foundation in 2019 starts an important partnership with the Mexican Society of Radiology and the Federation Mexican of Radiology.

The selected candidates have the opportunity to attend a period of specialization in Italy in excellent healthcare facilities, to learn more about the main methods in the field of diagnostic imaging. The goal is to contribute to cutting-edge scientific training for the Mexican radiologists of the future.

For scholarship holders, the program is not only a scientific experience but a true immersion in Italian culture and way of life. In this way, in fact, the Bracco Foundation and the Bracco Group contribute to promoting "Italianness" in the world.

Upon their arrival in Italy, the winners, selected on the basis of merit by a Scientific Commission, are assigned a mentor as guide, who offers them technical advice during their stay.
